

## The SILK that Splits Was Not "MONEYBAK"

"Moneybak" silk means satisfaction or your money back. When made up it will not crack or split at seams. Pull it zig-zag, crosswise, cornerwise or any other way and it springs back into shape because it is all silk, lots of it and pure dye.

New lot just received.  
Moneybak Taffeta \$1.15 a yard up.  
Moneybak Peau de Soie \$1.40 upward.  
Waterproof and Perspiration proof silks, width 27 inches, \$1.00 per yard.  
Our Quickseller Taffeta, black and colors, pure silk, guaranteed to wear, 65c. a yard.

### MONDAY, TUESDAY AND WEDNESDAY SPECIALS.

Odd lots of ladies' knit vests at prices that will quickly close them out. Quantities small.  
10c. Vests on sale at ..... 6c.  
20c. Vests on sale at ..... 12c.  
25c. Vests on sale at ..... 15c.  
35c. Vests on sale at ..... 20c.

### ANOTHER BIG BARGAIN.

New stylish veilings in black, white and colors, plain and dotted, value up to 40c. a yard. On sale at 15c. a yard.

N. S. SACHS' DRY GOODS CO. LTD., Cor. Fort and  
Beretania Sts.

## PACIFIC CLUB LOSES ITS CASE

The Supreme Court this morning decided the Pacific Club liquor selling case against the Club, with Judge De Bolt dissenting. The majority of the court, consisting of Justice Hartwell and Judge Robinson, find the Pacific Club guilty of selling liquor without a license. The Club's method of serving liquor to its members and their guests, in the opinion of the court, constitutes a sale of liquor. This means that the Club will have to take out a \$1,000 license.

The case was brought as a test case, to settle whether the Club must take out a license or not. Judge De Bolt in his dissenting opinion holds that as there is no transaction for profit, but merely the "equitable distribution" of liquors among members of the Club and their guests and no others, the Club is not in business for profit, there is no such sale as is necessary to bring the Club under the provisions of the license statute. The opinion of the court says that the transactions between the Club and its members or guests amount in law to sales of spirituous liquors, and that it is immaterial whether the Club intended to violate the law or whether the sales are made for profit or not.

## IMMIGRATION CHIEF COMING NEXT MONTH

COMMISSIONER GENERAL SARGENT WILL ARRIVE IN APRIL. WILL DEDICATE BUILDING.

Commissioner General of Immigration Frank P. Sargent will arrive here next month. The head of the immigration department is to again visit the Hawaiian Islands. He was here about two years ago. The Commissioner General will dedicate the new immigration station which is being rapidly constructed at Kapaemahu Point. The building will be completed next month but the exact date of the dedication has not been set. It will depend upon the arrival of Commissioner Sargent.

The latter will also be apt to regulate his visit by the return of F. M. Bechtel, the head of the local immigration service. Bechtel is ill at Byron Hot Springs and is not expected to be able to return to Honolulu before April. General Sargent will be accompanied by his wife and daughter. He is likely that Sargent will make an inspection of conditions here. He is a wide awake alert man and plunged into the work promptly on the occasion of his last visit. He made some changes in the manner of handling the immigrants. There was however no grand shake up of the local service or anything of that sort. He simply came to make his first visit to the islands since they were annexed. The present trip is simply to dedicate the new building and probably inspect the work in these islands.

## SIX DECISIONS BY SUPREME COURT

HARRISON VS. MAGOON SETTLED AT LAST—A MANDAMUS FOR JUDGE DE BOLT.

Among six decisions handed down this morning by the Supreme Court were decisions in the cases of Lorin Andrews' appeal from the auditor, Spreckels vs. Brown, Hackfeld and Company vs. Achi, Harrison vs. Magoon and Frank Godfrey, trustee, vs. Helen Rowland.

Harrison vs. Magoon is finally settled after about six years of litigation, by a refusal of a rehearing. The decision in favor of defendants stands. The attorney general's appeal was from a refusal of the auditor to allow a bill for a special stenographer for writing up court notes. The court holds that the auditor was right, and says that the regular court stenographers should do all the work.

In Spreckels vs. Brown the court issues a mandamus to compel Judge De Bolt to hear the case. He was transferred from Hilo, and De Bolt came to the conclusion that the change of venue had not been legally made and refused to go on until the question was settled. The court issues a writ ordering him to proceed.

The decree of foreclosure in the \$10,000 suit of H. Hackfeld and Company vs. W. C. Achi is affirmed.

## SHIP OTHELLO IN TROUBLE

SICK MAN ESCAPED FROM BOAT WHICH IS LIKELY TO BE HELD UP BY AUTHORITIES.

The Chilean ship Othello is in pilikia over the escape of the sick sailor Anton Milazzo who got away from the vessel last week. The case of Milazzo is an instance of which an ounce of precaution in the shape of a little money would have prevented the pound of trouble into which the vessel is now placed. The man was too ill with rupture to go to sea and should have been sent to a hospital for thirty days. The local immigration officials under the statute had no right to allow him to land unless they were given some assurance that the man would not be dumped on the beach and that his expenses would be paid at the hospital. The master of the vessel was perfectly willing to have the man landed but he did not seem anxious to pay the expenses of his care in the hospital. Had such assurance been given them the local immigration authorities would have suspended the regulations so as to enable the man to have landed, entered at the hospital, and when he came from that institution he could have been reshipped. No such assurance was given them however so under the laws there was no other recourse but to order him deported on the vessel whence he came.

The man got away from the ship however and is missing. The immigration authorities insist upon his deportation by the Othello. If the man can not be found the vessel will either be held indefinitely or else be fined heavily. Three other men escaped from the vessel last week and are at large.

## BOOTH WINS IN PACIFIC HEIGHTS

THE SUPREME COURT REFUSES TO DELAY THE SALE OF PACIFIC HEIGHTS.

In the case of Desky vs. Booth, the Supreme Court this morning gave a decision sustaining Judge Robinson in refusing to amend the mortgage instrument under which Pacific Heights was ordered sold, or to order a sale in small lots instead of altogether. Desky stopped the sale after Booth had foreclosed, by a suit to amend the mortgage, claiming certain property as exempt and claiming that the sale should be in lots instead of all in one lot as was advertised. Judge Robinson decided that the sale should go on as advertised, and the Supreme Court, in a decision by Justice Miller, sustains this view.

## SHIPPING INTELLIGENCE

KAHULUI.  
Departing, March 6, S. S. Nebraska, Weeden, for San Francisco.  
Arriving, March 5, S. S. Argyle, Gilboy, from San Francisco; March 5, bk'n Fullerton, 15 days from San Francisco.

## IN THE SENATE

(Continued from Page 1)

providing for the filing of bonds on appeal, which passed in the House and was then reconsidered.

President Isenberg was opposed to granting the request, the bill having passed first reading in the Senate. The thing was unprecedented.

Hewitt moved that the request be referred to a special committee.  
"It seems to me," said Dowsett, "this is asking too much. This bill has passed first reading in the Senate. Where would the power of the House stop, if we grant this request. To grant the request would be unprecedented."

Achi pleaded that the House was within its rights, but was overruled and the request went to the Revision Committee.

A joint resolution from the House giving copies of the Revised Statutes to the members of the Code Commission and the County Act Commission was referred to the Judiciary Committee.

From the Judiciary Committee reported in favor of Senate Bill 58, providing for printing the decision of the Federal court. Laid on the table to be considered with the bill.

The order of the day occurred on third reading of Senate Bill 73, the special post for fire appropriation act. The bill passed without dissent.

Senate Bill 6, the Dickey Park bill, came up on third reading, and went over for consideration until next Tuesday on motion of Woods.

Senate Bill 46, relating to proceedings for recovery of land, on third reading passed without dissent.

House Bill 7, on second reading, went to the Judiciary Committee.

House Bill 28, the divorce law, on second reading, went to the Judiciary Committee.

House Bill 32, to encourage diversified industries, went to the Public Lands Committee.

House Bill 74 went to the Revision Committee on second reading.

House Bill 75, second reading, referred to Judiciary Committee.

The Judiciary Committee reported tentatively on Senate Bill 76, relative to the appointment of district magistrates. The report, before it was disposed of, raised a breeze between Paris and Achi, the point being raised by Dickey that he had not seen the report.

Paris claimed that the report was not signed by all the committee, and Achi claimed that the committee was capable of managing its own affairs. Paris said the rules provided that all committee meetings should be public, and Achi said all the committee had to do was to state the facts.

President Isenberg ruled that the report was not in conformity with the rules and would be returned to the committee for correction.

Achi protested against this, claiming that the report was in accordance with the rules, and he wanted to know why the report had been ruled out of order?

"For you did not give notice of the meeting," said the President.

"I gave notice here that our committee would meet every day after adjournment."

"Have you met every day?" asked Paris.

"Yes," said Achi, "and I give notice now that in addition to the meeting already called, the Judiciary Committee will meet at my office at 9 o'clock every night."

And then Achi appealed from the ruling of the chair, and the appeal was sustained. The report was then laid on the table to be considered with the bill.

Achi introduced a bill to exempt homesteads from forced sale. Passed first reading.

To Bishop & Co., Honolulu.  
Heavy and continuous rains at Oahu and Hilo. Seven inches of rain at the waterhead. Oahu Mill resumes grinding on Monday morning. WATTE.

Fine Job Printing, Star Office.

## IN THE HOUSE

(Continued from page one.)

They severely complained that though their services were rendered some time ago they have never been paid.

The cases were those of J. F. Mau who died at Kalaupapa on September 2, 1903, Kalamandine (w) who died on October 14, 1903, and Kalepa who died on November 2, 1903.

On Coelho's motion the petitions were referred to the Police Committee though that committee tried to get the matter moved over to the Finance Committee. Rep. Sheldon said that there were corner's juries on Kauai who had not been paid for three years and that he intended later to introduce a resolution in connection with the matter.

The Clerk of the Senate transmitted the Senate bill for the facilitating of the collection of certain debts due the Territory of Hawaii. The House passed the first reading by title.

The Senate bill to regulate spitting passed a first reading by title.

Attorney General Lorin Andrews submitted a report showing incidental expenditures of \$4,012.88 for the last six months of 1904.

The Committee on Public Instruction recommended an appropriation of \$2,500 for a school at Miloli.

The Committee on Public Lands and Internal Improvements reported that Supt. Holloway had appointed Mrs. E. M. Nakulua, R. C. A. Peterson and H. H. Trent as commissioners to determine the value of Kailhi valley water rights, but that it will be impossible to report in 15 days as requested, the time being too short.

A petition signed by a large number of Honolulu people, both male and female, was presented by Rep. Kanio asking for amendments of the law respecting the segregation of lepers. It asked that the words giving the Board of Health power to segregate "persons who shall be deemed capable of spreading the disease of leprosy" or persons "alleged to be" lepers to apply to persons "believed, after due and careful examination, that they are capable of spreading the disease of leprosy."

The petition went to the Health Committee.

The Committee on Public Lands and Internal Improvements reported favorably on the suggested appropriation of \$20,000 for the extension of the Kailhi road to the head of the valley, and for \$40,000 for the new Paoia road.

The Committee on Public Instruction recommended an item of \$2,500 for an addition to the school house at Makapuu, and one of \$5,000 for a three-roomed school and teacher's cottage at Papea, Kauai.

The Reference Committee recommended the indefinite postponement of Pulaa's bill to repeal the poll tax law as a bill by Kanio covers the ground.

There was a flurry in the House when the report of the Joint Committee on the County Act was submitted. The Joint Committee asked for further time within which to report, and also asked for permission to have for its consideration all House and Senate bills on local self-government.

It was obvious from the demeanor of the House that in this report there was feared a deep laid plot to shelve the County Act altogether. Rep. Liliuokalani and Rep. Kanio were particularly indignant, saying that if another ten days were given the first thing the House would know would be that the session would end. A motion to reject the committee's report was adopted.

Rep. Holstein moved for the discharge of the committee and this was accordingly done.

Holstein then moved a resolution to the effect that the County Act as prepared by the Commissioners should be considered in committee of the whole and that all bills introduced touching the question of county organization or the election of county or district officers shall be reported on by such committee of the whole.

The resolution passed practically without opposition.

Rep. Greenwell submitted a resolution asking that the Superintendent of Public Works be requested to furnish a detailed account of work done, under present construction and all communications in relation to the Pahala Volcano road.

The following bills were introduced and read a first time by title:

To convert land at Makauku and Coconut Island, Hilo, into a free recreation ground. (Lewis).

To amend the Revised Laws touching upon the punishment for destroying native wild game. (Holstein).

To facilitate the collection of rents. (Long).

To protect vested fishing rights. (Andrade).

To impose a tax of 2 per cent per annum on every trade, business, profession, employment or vocation in the Territory when the profit or income exceeds \$2,000. (Broad).

A concurrent resolution was sent to the Senate on Rep. Kaleopa's motion asking that a joint committee be appointed to consider the Railroad bill and if necessary to call a public meeting and to report within ten days.

Rep. Coelho introduced a resolution to appropriate a sum sufficient to pay the bills incurred by the Boards of Registration for the 3rd and 6th Districts during 1904. This resolution is to provide for the payment of steamer transportation of the registration boards between the islands for which no appropriation was available.

Rep. Pulaa asked for \$2,000 for a school house at Kaahulu, North Kohala.

Rep. Mahelona is after the Circuit Court clerks. It is well known that they make agreeable additions to their salaries by working as masters, commissioners and in other capacities to which they are appointed by the respective judges and Rep. Mahelona wants to know how much they thus make on the outside. He moved a resolution asking that a report be made by the Finance Committee after investigation into the amounts received or earned by the Circuit Court clerks.

## STRYCHNINE FOUND IN SODA

(Continued from page one.)

President Jordan, Timothy Hopkins and several detectives.

The chemists did no work on Saturday evening. The room in the dispensary where for days they have been working on the stomach of the deceased woman was deserted. Both men were nearly exhausted after their long task. They had had only a few hours sleep each since noon on Tuesday, when the stomach was turned over to them. Yesterday they were engaged in the preparation of a report for the sheriff.

Sheriff Henry declared emphatically yesterday evening that he did not know the result of the chemists' investigations, though the tests had been completed 24 hours before. He stated that he was awaiting a written report from the chemists and had not received any oral report, also that he would not receive any oral report. He was still utterly ignorant of whether the chemists had found any strychnine in the stomach or not. Asked if he did not need to know for the purposes of his own investigation of the tragedy whether poison had been found or not, Henry stated that he was still as much in the dark as to the results of the examination as when the tests were begun.

He would give no information and take no steps of any kind until he had a written report and he didn't even want to know the result by oral report.

Deputy Sheriff Rawlins appeared to be in an equally happy state of ignorance. In fact the two men who are in charge of the whole investigation of the death of Mrs. Stanford had not been enough interested in the work of the chemists. It appeared, to even receive news of the result of the chemists' investigations, and the chief who was at the head of the case declared that he didn't want to know, unless the chemists wrote it out and sent it in as a formal report.

Both the chemists had a short interview with Deputy Sheriff Rawlins on Saturday evening. It is stated, however, that no communication passed regarding the result of the chemical tests, though the chemists had at that time ceased work. For the rest of Saturday night the Stanford medicine bottles and stomach remained in the dispensary building, while the chemists went home and enjoyed well earned slumber. According to their statements neither Sheriff Henry nor Deputy Sheriff Rawlins cared enough about the important case on which they are engaged to ask the chemists whether they found strychnine or not.

On Saturday the police made some investigations at local drug stores, taking down from the poison registers the records as to purchases of strychnine for three months back. This is supposed to have been for the purposes of finding out whether there is any chance that the poison Mrs. Stanford is thought by some to have taken was purchased here. The investigation was made by Deputy Sheriff Rawlins.

Yesterday the sheriff was engaged much of the day on a burglary case and other police business, but he found time in the evening to go with the deputy to the Moana hotel. Then he returned to the station and was closeted with Chemist Duncan. After the interview with Duncan, Henry stated that the report, instead of reaching him at once as he had stated was his expectation, might be four or five days in being made. He declared that the chemists were about to resume work and that he didn't know when they would report. It might be four or five days. In the meantime nothing was known as to the results of the work they had done.

The remains of Mrs. Stanford are still at the Henry Williams undertaking parlors. A policeman is on guard all night at the door of the establishment. It fell to the lot of the officer on guard last night to deny a rumored yellow report of an attempt to kidnap the body.

## BRUTAL MURDER

The Kauai police are congratulating themselves on some prompt work done last week in the case of a brutal murder in Lihue. A number of Porto Ricans were having a celebration of some sort in a room. Among them was Pasqual Edmandy. Kandle Soto went outside, it is charged, and returned with a club with which he is alleged to have battered the skull of Pasqual. The other Porto Ricans fled and during the absence Soto is thought to have plunged a knife into the heart of his alleged victim for a knife was found in Pasqual's heart. Soto escaped and went to his house to pack up his effects where he was subsequently caught by the police. The man was committed for trial by the court on Kauai. He was brought here yesterday by the steamer W. G. Hall.

\*\*\*\*\*

of the First Circuit, in addition to the regular salaries.

Rep. Andrade strongly objected that what extra money the clerk's made was no concern of the House but the resolution carried.

## HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu Station and Trent & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10 p. m.

Fine Job Printing, Star Office.

Merchant and Fort Sts.,  
Honolulu, Hawaii.

## TO THE POLICY HOLDERS OF THE EQUITABLE LIFE ASSURANCE SOCIETY OF the United States, in the Territory of Hawaii.

Gentlemen: It gives me great pleasure to inform you that the recent Equitable controversy has been mutually, satisfactorily and permanently adjusted. It is regrettable, however, that so much publicity should have been given to this matter before the results had been reached.

The principal result arrived at through this controversy is that the society has decided upon its complete mutualization, through a resolution unanimously adopted by its Board of Directors. For the purpose of carrying out this project in the interests of the policy holders, the following prominent and well known gentlemen have been appointed as a committee:

Valentine P. Snyder, James H. Hyde, Cornelius N. Ellis, James W. Alexander, Gage E. Tarbell, T. De Witt Cuyler, Chauncey M. Depeu.

The present movement has been for the purpose of preserving through all future time the strength and prosperity of the society, and removes, in the opinion of many of its friends, the only obstacle in the way of its constant progress. This mutualization plan, which has been successfully adopted by the society, and which has been on the tapis for some time, should give a tremendous impetus to the business of the society in the future.

I beg to remain,  
Very respectfully yours,  
BRUCE CARTWRIGHT,  
Manager, Equitable Life Assurance Society of the United States for the Territory of Hawaii.

## NEW ADVERTISEMENTS.
